Wireless Service

Building wireless infrastructure that works for you.

enables IT

Stay connected without compromise

Fast, secure, and reliable wireless networks, designed around your environment and built to support how your teams work and grow.

Detailed Surveys

We begin with predictive and on-site surveys to design wireless coverage that fits your workspace and usage patterns.

- Coverage Mapping
- Capacity Planning
- Optimised Placement

Secure Access

Our solutions balance speed with control ensuring users stay connected, segmented, and compliant with your security policies.

- Guest Networks
- Device Control
- Policy Compliance

Fully Supported

Designed for longevity and ease of management, with optional remote monitoring and clear documentation for ongoing performance.

- Remote Monitoring
- Clear Records
- Scalable Support

Stay connected wherever you work...

About Us

enablesIT

Why Choose Us

Reliable Support, Anytime

We go beyond 9–5, offering support from 8am–6pm, with optional 24/7 coverage—including evenings, weekends, and bank holidays. Whenever you need us, we're there.

Proactive Monitoring & Management

Our real-time monitoring detects and resolves desktop issues before they impact your business. You'll also gain full visibility through our asset management portal.

Robust Security & Maintenance

We prioritise security with anti-virus protection, malware monitoring, and scheduled patch management—keeping your systems safe with minimal disruption.

Don't just take our word for it...

"We partnered with enablesIT in mid-2020 and all our contacts there are friendly and efficient – I don't have to chase up on queries and the projects are managed professionally."
